

## PORTABLE FLAME CUTTING MACHINE

### Trust Cut 90

#### Portable Flame Cutting Machine Oxy - Fuel Process

##### General Purpose

Trust Cut 90, is an unique high quality mechanized product based on portable oxygen cutting technology. It is simple, inexpensive and light in weight.

The Trust Cut 90 is also capable of providing speedy, convenient, versatile method of cutting and shaping steel upto 75mm thickness. And suitable for ship-yards, large and small engineering sectors, site use etc.. for machine cutting performance.

##### Specialities :

- Universal motor for smooth operation from 220V-240V, single phase AC or DC supplies
- Infinitely variable speed control
- Maximum power consumption is 80 Watts
- Fine control valve system for cutting Oxygen, Heating Oxygen and fuel gas, mounted on cutting torch.
- Cutting torch suitable for use with Acetylene or propane with the appropriate nozzle.
- Straight Cutting, Square Cut, Bevel and circle cutting can obtained, with the appropriate accessories.

##### Accessories (Optional) :

- Straight Cutting track 1.8mm (Aluminium)
- Circle Cutting Attachment
- 5mm dia, Hose pipe with Flashback Arrestor for Oxygen(cutting, Heating Gas) and fuel gas.
