

KS - 300Y - 1

Single Stage SS Diaphragm
Pressure Reducing Regulator

SS Construction

Six Port Configuration

Bottom / Side / Rear Entry

Suitable For Corrosive / Non- Corrosive Gases

Applications :

- Analyser Systems
- Purge Gases
- Instrumentation control
- Pressure test & calibration system
- High purity carrier gases

KS - 300Y - 2

Single Stage SS Diaphragm
Pressure Reducing Regulator

Brass Construction

Six Port Configuration

Bottom / Side / Rear Entry

Suitable For Non-Corrosive Gases

Applications :

- Analyser Systems
- Purge Gases
- Instrumentation control
- Pressure test & calibration system
- High purity carrier gases

KS - 400Y - 1

Multi Stage SS Diaphragm
Pressure Reducing Regulator

SS Construction

Six Port Configuration

Bottom / Side / Rear Entry

Suitable For Corrosive / Non- Corrosive Gases

Applications :

- Analyser Systems
- Purge Gases
- Instrumentation control
- Pressure test & calibration system
- High purity carrier gases

KS - 400Y - 2

Multi Stage SS Diaphragm
Pressure Reducing Regulator

Brass Construction

Six Port Configuration

Bottom / Side / Rear Entry

Suitable For Non-Corrosive Gases

Applications :

- Analyser Systems
- Purge Gases
- Instrumentation control
- Pressure test & calibration system
- High purity carrier gases
